K-12 SOLUTIONS:
SAFETY IN EDUCATION FUELED BY AI TECHNOLOGY

Hikvision campus solutions can deter theft, vandalism, bullying, and violence, and provide administrators with actionable intelligence and response capabilities. Our broad portfolio of products provides schools with technology for campus-wide security coverage with HD clarity. This allows school resource officers to properly monitor student and staff activities, visitors and assets, the key to preventing and managing security threats and disaster situations.

Solutions Overview

Unauthorized Visitor Search & Detection

- ☐ Unauthorized persons can be detected and trigger an alarm.
- ☐ Search for an unauthorized person using attributes such as clothing color, wearing a hat, mask status and more, helping you save time searching video for a specific person or target of interest.

Vehicle Damage Complaints & Unauthorized Parking

- ☐ Hikvision LPR (license plate recognition) systems help you determine liability from vehicle damage that happens in parking lots. It makes video search simple and effective using the vehicle license plate number.
- ☐ Parking restrictions can deter threats and unwanted behavior. Cameras can detect unauthorized vehicles that are parked nearby the school or in restricted areas, to deter and prevent a threat or incident.

Crowd Gathering Detection

- ☐ This feature provides three levels for tracking a pre-configured number of people. When the number of people rise from a low level to a high level, the Crowd Gathering Alarm is triggered to deter and prevent student bullying or fights.
- ☐ Monitor the real-time number of people in a specified area.
- ☐ Detect the number of people in an area as the crowd begins to disperse.
