

NEW ACUSENSE PCI VARIFOCAL CAMERA SERIES:

DarkFighter and Anti-Corrosion Technology for
Added Protection & Image Clarity in Harsh Environments

DarkFighter ultra-low light technology improves image brightness, reduces noise, and enhances color rendition. It delivers high quality color video in darkness and captures excellent details in very dim light.

NEMA 4x grade anti-corrosion coating to reduce damage and maintain performance in mildly corrosive environments.

Built-in heaters in the camera housing protect a wider area for low-temperature applications from -40-140° Fahrenheit.

Equipped with 2nd Gen AcuSense technology for effective reduce false alarm to improve operational efficiency.

Motion Detection 2.0 is ON by default for accurate notifications. Supports Quick Target Search on the NVR and tags events triggered by human or vehicle targets.
