

Modular IP Video Intercom Solution

# Adaptable and Elegant

## Key Benefits

### Clear Audio-Visual Communication:

- Communicate clearly with noise and echo cancellation
- Door station camera provides a Full HD, 180° wide field of view
- See clearly day and night with true WDR and IR night vision

### Easy to Use for Multiple Applications:

- Intercom, doorbell, multi-tenant video entry and monitoring functions
- Receive calls from visitors and unlock the door on indoor stations, smartphones and tablets using the Hik-Connect mobile app
- Call room-to-room between indoor stations and iVMS-4200 software
- Monitor additional surveillance cameras on the indoor station
- Record door station video with motion detection on your Hikvision NVR/DVR

### Easy to Install:

- Standard PoE switches can connect and power the whole system
- Indoor stations can also connect via Wi-Fi with 12 V power
- All door station modules can be surface or flush mounted
- Simplified configuration gets you started in minutes

## Modular IP Video Intercom Kit DS-KIS602

This kit is readily suited for homes and businesses where the door station calls one or more indoors stations at the same time. It can be expanded with more modules and stations as needed.

### Kit Contents

DS-KH6320-WTE1	DS-KD8003-IME1/ Surface	16 GB Micro SD	DS-3E0105
			
Value Indoor Station	Surface Mount Door Station	Memory Card	5-Port PoE Switch

## Modular Door Station

The basic door station includes the surface or flush mounted main unit, which provides video intercom functionality with one name tag and call button. Up to eight additional modules can be connected to the main unit. The name tag module provides six additional name tags and call buttons. The card reader module allows door unlock using RFID cards or fobs. The keypad module allows dialing more than 500 rooms as well as passcode access. The display module lists the contacts that can be selected and called. There are surface and flush mount frames that hold two or three modules vertically, and multiple frames can be mounted adjacently.

SELECT YOUR MODULES AND FRAMES			BUILD YOUR DOOR STATION
Modules	Flush mount	Surface mount	Numerous possibilities

AVAILABLE MODELS	
DS-KD8003-IME1/Surface	Main unit with surface mount
DS-KD8003-IME1/Flush	Main unit with flush mount
DS-KD8003-IME1	Main module without mount
DS-KD-KK	Name tag module
DS-KD-M	Card reader module
DS-KD-KP	Keypad module
DS-KD-DIS	Contact display module
DS-KD-ACW2	Surface mount frame for 2 modules
DS-KD-ACW3	Surface mount frame for 3 modules
DS-KD-ACF2	Flush mount frame for 2 modules
DS-KD-ACF3	Flush mount frame for 3 modules

## Indoor Stations

- User Friendly  
7 Inch Touchscreen
- Supports 32 GB  
Micro SD Card
- Standard PoE  
IEEE 802.3af
- Auto Captures  
Pictures & Messages
- 8 Alarm Inputs  
2 Alarm Outputs
- Wi-Fi Supported  
IEEE 802.11b/g/n

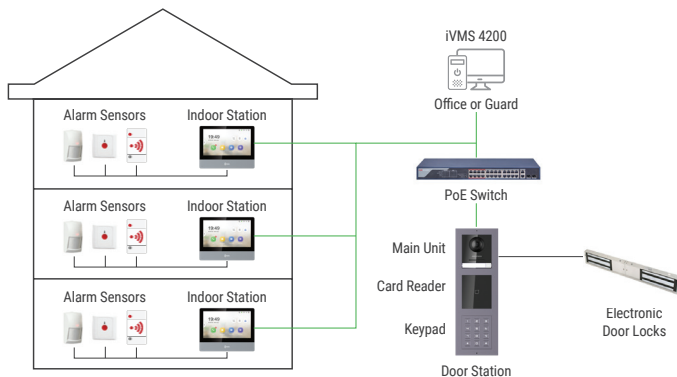

- Pro Model DS-KH8350-WTE1
- IPS LCD 1024x600 Display
  - Aerospace-Grade Aluminum Frame
  - Premium Tempered Glass Touchscreen
  - Physical Button for Unlocking Door

- Value Model DS-KH6320-WTE1
- TFT LCD 1024x600 Display
  - Plastic Frame
  - Glass Touchscreen
  - No Physical Buttons
