

HIKVISION®

HIKVISION'S IP VIDEO INTERCOM SYSTEMS

A Simple Touch to Step Into a
New Level of Convenience

INDUSTRY LEADER

Hikvision's IP Series Video Intercom solutions are a global leader, with more than 1 million devices in use worldwide. Our extensive R&D team fuels continual development of better products with expanded functionality, all at great value.

No.1 Global Market Share

1,000+ Engineers

1,000,000+ Devices

EXCEL WITH HIKVISION IP INTERCOM PRODUCTS

Video intercom has come a long way from simply answering calls and swiping cards. Today, intelligent IP video intercom solutions deliver outstanding features for better security. As a leading IoT solution provider, Hikvision has innovated intelligent IP intercom products designed by a robust R&D team.

Hikvision's IP Series Video Intercom solutions deliver a new level of convenience for your application. From apartments to suburban villas, offices and other commercial buildings, our intercom systems provide advanced image quality and practical functions, such as mobile control, friendly touch screens, visual interfaces, and more. All of this improves ease of use and expands capabilities for better intercom systems, and better security.

RESIDENTIAL/VILLA SOLUTION

The Hikvision residential/villa home intercom solution provides thoughtful, useful functions for every member of the household. Users can call multiple indoor stations at the same time and unlock a door at any of the indoor stations. They can also receive call information and unlock doors remotely and conveniently via the Hik-Connect mobile app.

The Door Station's 2 MP HD camera renders images clearly both day and night. With the record-to-NVR function, users can check what's happening at their doorstep at any time. Hikvision intercom devices can also integrate with video security camera systems, allowing indoor stations to display footage from any IP cameras installed around your house. Security and convenience come together seamlessly with this IP video intercom solution.
