

NEW DUAL LENS 4 MP TWO-DIRECTIONAL PANORAMIC CAMERA

Dual channel PanoVu camera offers cost-savings plus intelligent and effective video security.

The new Hikvision Dual-Lens Camera DS-2CD6D42G0-I is an excellent product for monitoring indoor hallway environments with two-directional video security. This camera also performs well for outdoor applications that need to watch two areas at the same time. The two lenses in one camera design deliver reduced installation costs, saving customers money by reducing the number of cameras required for comprehensive security. One Dual-Lens PanoVu camera can provide the coverage of two conventional cameras.

Total 8 MP resolution delivers clear, sharp images

Both channels have WDR to ensure clarity when there are dark and light areas in the scene

Easily adjust the camera to any angle to focus on what's important

Excellent outdoor performance with water and dust resistant (IP67) and vandal-resistant (IK10) ratings

Built-in microphone for real-time audio security

Power over Ethernet (PoE) provides a one-cable solution for both power and data with only one IP address to manage the camera for dual operation
