

**Security Notice:**  
**Statement on the Meltdown and Spectre Vulnerabilities in the Intel CPU  
Architecture Design**

**SNN**o: HSRC-201801-08

**Edit:** Hikvision Security Response Center (HSRC)

**Initial Release Date:** 2018-01-06

**Summary**

Recently, a security vulnerability affecting Intel processors was disclosed. This vulnerability may result in operating systems' kernel information leakage. Applications can access kernel data without authorization.

Hikvision immediately launched an investigation and established a technical communications process with the supplier. The investigation is still ongoing. HSRC will continue to provide updates to this notice as relevant information becomes available.

**CVE-ID :**

CVE-2017-5753

CVE-2017-5715

CVE-2017-5754

**Impact**

Investigative process is ongoing.

**Affected Software/Hardware Version and Fixes**

TBD

**Solution**

Investigative process is ongoing.

**Contact Us**

This notice will be updated continuously. We recommend monitoring this notice to check for status updates. Should you have any questions, please feel free to contact us via email at [hsrc@hikvision.com](mailto:hsrc@hikvision.com).
