

## **Hikvision Certification Program**

### **HCSA**

First choice for security professional is  
also one of your best benefits.

# Hikvision Certification Program (HCSA)

HIKVISION leads the way within video surveillance. From CCTV to IT technology, we have gained a lot of experience along the way and won't keep them to ourselves. HIKVISION sets an industry standard by offering professional video surveillance certification to validate video expertise. HIKVISION certification program is upcoming and open to global customers and partners, and it includes 3 levels programs which are HCSA, HCSP and HCSE. Besides, HIKVISION provides meaningful endorsement to those who pass and become Hikvision Certified Professionals.

- **HCSA**

**Hikvision Certified Security & Protection Associate** focused on basic and essential operation & maintenance training on Hikvision security devices. It is designed for security technical engineers who has worked in security industry for several years and gained some security basics.

- **HCSP**

**Hikvision Certified Security & Protection Professional** focused on advanced operation & maintenance training on Hikvision security devices. It is designed for technical backbones with at least 5 years' security work experience who is skillful at solving complicated technical problems. Trainee must pass HCSA then can apply for HCSP.

- **HCSE**
